1	<b>Problem Statement</b> (Problem to be solved)	Many patients struggle to find the right doctors due to limited search options, unclear information, confusing booking systems, trust issues, and unreliable appointment confirmations. Doctors face difficulty managing appointments efficiently, while admins lack proper control and monitoring. These issues lead to patient frustration, missed healthcare opportunities, and reduced trust in online appointment systems.
2	<b>Idea / Solution Description</b>	<b>MediCareBook</b> is a full-stack Doctor Appointment Booking platform that allows patients to search and book appointments with verified doctors easily. Users can view doctor profiles, specialization, experience, consultation fees, and availability before booking. Doctors get a dedicated dashboard to manage appointments, while Admin monitors users, doctors, and overall platform activities.
